

## Web developer for learning systems VwGr IVa (substitute employee) Ref. PERS.Abt.-11176

### Start/duration:

From 01/02/2020

Until 31/01/2021, or until the return of the job holder

### Organisational unit:

Central IT service, digital media and learning technologies

### Employment:

Substitute employee – 30 hours/week

### Main tasks:

- » Operation and monitoring of the OpenOLAT learning management system
- » Software development and integration of software/systems with a focus on learning and teaching user support
- » Project collaboration and coordination in the fields of digital media and learning technologies

### Qualifications and skills required:

- » Completed diploma or master's degree or equivalent qualification (e.g. technical qualification with special knowledge or relevant professional experience); practical experience in the field of software development; sound programming skills (preferably in Java and JavaScript); basic Linux and ideally Docker knowledge; knowledge of Apache Tomcat, XML and relational database technologies; ideally knowledge of the OpenOLAT, edu-sharing and OpenCast systems
- » Able to work independently and precisely; able to work in a team; excellent cooperation skills; customer and service focus; very reliable; dedicated and willing to complete further training; flexible and resilient

### Salary:

This position is subject to a minimum collective wage of € 2,005 per month (14 times)\*. This amount increases if the employee has relevant professional experience. The university also offers many attractive additional services (<https://www.uibk.ac.at/universitaet/zusatzleistungen/>).

**Application:** We are looking forward to receiving your online application [https://orawww.uibk.ac.at/public/karriereportal.details?asg\\_id\\_in=11176](https://orawww.uibk.ac.at/public/karriereportal.details?asg_id_in=11176) by 01/04/2020.

The University of Innsbruck is striving to increase the proportion of female employees and therefore explicitly requests qualified women to apply. This applies in particular to management roles and scientific positions. In the case of underrepresentation, women with the same qualifications are given priority.
